at the maple site with Chad , to concoct a lie to cover it up.

Also, one can never overlook that the prosecution was in possession of this evidence and they did nothing. Instead, they went along with it.

Any reasonable attorney would have gone through discovery and would have then been able to prove that Leslie was lying.

Another example of ineffective assistance of counsel is when Investigator John Sieling testified for the state. During John's examination by the state, many aerial photos and the testimony about them, were allowed in. John was shown pictures that were taken on the 17th of April 2007. John testified that, "These photos *accurately show* how the structures, buildings, homes and roads were on the 17th of April 2007." (t1197) "These photos show the trees, underbrush, and width of the trails from different angles surrounding the crime scene."

After April 13th 2007, numerous officers had returned to the crime scene to conduct further investigations. Some of those officers testified to their findings.

Captain Joe MacArthur testified that he personally had been to the crime scene at least three times since April 13th, 2007. (t1365-1376-1381-1416) During those trips to the crime scene, his brothers, John and David MacArthur also helped investigate this case. (t1381)

David MacArthur is employed at the Becker County Jail as a jailer. He and Petitioner got into an argument there because he would remove Petitioner from his cell and then go through his legal documents *see* EXHIBIT F.

Captain Joe MacArthur testified that while using metal detectors around the crime scene, some of the officers helping him might have found some evidence. Captain MacArthur also said from his experience, he thought he may have found some places where someone may have sat down and left imprints. And where a gun may have been set down, but he could not be sure.

Captain MacArthur also testified that on April15th, 2007, he was at the crime scene at 2:22 pm. During that visit, he determined that he could see through the woods in various
